Capstone Health Alliance Announces Partnership with Subtle Medical

Fletcher, North Carolina, June 18, 2021 – Capstone Health Alliance announces a new partnership with Subtle Medical, a healthcare technology company with FDA-Approved AI software for radiology. Subtle Medical uses innovative deep learning solutions that improve medical imaging efficiency and improve patient experience. Their vendor-neutral software integrates seamlessly with any PET or MRI scan to improve image quality without any alteration in the existing workflow.

Capstone Senior VP, Supplier Relations and Contract Operations, Robin Lincoln, said, “Capstone is excited to partner with Subtle Medical to offer a unique solution to our healthcare members looking for PET and MR improvements, yet do not have the capital dollars to invest in new equipment. Subtle Medical is a company with breakthrough technology that can help extend the life of existing scanners while improving both the patient and physician experience.”

Subtle Medical Chief Commercial Officer, Josh Gurewitz, said, “All of us at Subtle Medical are extremely excited to be working with Capstone to deliver our unique artificial intelligence-based radiology solutions for MR and PET-CT imaging. With Capstone's large membership across the US, we look forward to serving their members and making a difference in patient care.”

About Capstone Health Alliance

Capstone Health Alliance is a group purchasing alliance of healthcare and non-healthcare members that delivers cost savings through the power of aggregation and collaboration. Based in Fletcher, North Carolina, Capstone's membership includes 300 hospitals representing more than 100 health systems across 23 states and represents over \$10 billion in acute care supply chain spend. Capstone also represents over 25,000 non-acute and business & industry members. Capstone delivers quantifiable savings and actionable data that enable better purchasing decisions for our members. In addition to cost savings initiatives, Capstone members collaborate to share best practices all with the intent of improving cost, quality, and outcomes.
